20 January 2022

- ✓ CPP examination at the Prometric test center in Amsterdam (to be confirmed)

CPP ELIGIBILITY REQUIREMENTS

Candidates wishing to take the CPP examination must meet the following eligibility requirements:

WORK EXPERIENCE

Nine (9) years of security experience*, at least three (3) years of which shall have been in responsible* charge of a security function

OR

Earned a Bachelor's Degree or higher from an accredited institution of higher education and have seven years of security experience*, at least three years of which shall have been in responsible charge** of a security function.

** Experience is defined as the individual having been personally engaged in security or loss prevention on a full-time basis (internships are not permitted), or as a primary duty. Included is:*

- a. Experience as a security professional in the protection of assets, in the public or private sector, criminal justice system, government intelligence, or investigative agencies.*
- b. Experience with companies, associations, government, or other organizations providing services or products, including consulting firms, provided the duties and responsibilities substantively relate to the design, evaluation, and application of systems, programs, or equipment, or development and operation of services, for protection of assets in the private or public sectors.*
- c. Experience as a full-time educator on the faculty of an accredited educational institution, provided the responsibilities for courses and other duties relate primarily to knowledge areas pertinent to the management and operation of protection of assets programs in the public or private sectors.*

*** Responsible charge is defined as the charge exercised by an individual in a management position who makes decisions for the successful completion of objectives without reliance upon directions from a superior as to specific methods. However, an applicant need not have held a supervisory position, as long as the positions on which the application relies have specifically included responsibility for independent decisions or actions. If "responsible charge" is not based on supervisory responsibilities, then security program management responsibilities and duties must be clearly shown. Generally, this excludes such positions as patrol officer or the equivalent.*

STUDY HOURS

ASIS International advises to plan on 250 study hours.

The DutchRisk CPP preparation program is aimed at maximizing the efficiency of those study hours.
